

ANNUAL MEETING.

The Literary and Historical Society held their annual meeting on Wednesday, the 11th January instant, the President, J. M. LeMoine, Esq., in the chair. After routine the following reports were read:—

REPORT OF THE COUNCIL.

The Council of the Literary and Historical Society of Quebec have the honor to report to the members of the Society that, since the last annual general meeting, there has been the following change in, and addition to, the members of the Society.

They have to note, with regret, the loss by death of an esteemed life-member—Jos. W. Leaycraft, Esq., and of the following associate members: Messrs. Thos. Murphy, F. Laurie, Levison Sewell, James McCaghey, Professor Hubert LaRue, and Thomas Andrews.

By resignation and removal from the city, the Society has lost six members; on the other hand, eighteen new names have been added to the list of associate members. With the daily increasing attractions the Society can offer, a very large list of members is confidently looked for.

The following papers were read before the Society:—

January 27th, 1881.—“NARRATIVE OF THE WRECK OF THE TRANSPORT ‘PREMIER,’ *with the Regiment 1st Royals, at Cape Chatte, 1843,*” read by Mr. Hellemore.

February 14th.—“WHAT I SAW IN FIVE DAYS IN ROME,” by Hon. David Alexander Ross.

March 3rd.—“THE ROYAL PALACES OF THE LOIRE,” by Louis Honoré Fréchette, Laureate of the French Academy.

March 19th.—“ANTICOSTI, ITS SHIPWRECKS—*Illustrated by a map—What has been done since Confederation to prevent Marine Disasters,*” by J. U. Gregory, Marine Department.

March 25th.—“THOMAS CARLYLE,” by Geo. Stewart, jr.

April 9th.—“THE PRACTICE AND PRINCIPLES OF ART,” by Woodford Pilkington, C. E.

November 25th and December 21st.—The opening lecture of the season 1881-82, by the President, J. M. LeMoine; subject: “EDINBURGH—ROUEN—YORK.”

Since the last annual general meeting, the library has been increased by the addition of numerous volumes selected in the spirit calculated to further the aims contemplated in the charter of this Association, the promotion of science and history, especially that of our own country, in their higher departments, to wit; “the prosecution of researches into the early history of Canada, for the recovering, procuring and publishing interesting documents and useful information relating to the National-Civil and Literary History of British North America, and for the advancement of the arts and sciences in the said Province of Lower Canada, from which public benefit may be expected.”

The report of the Librarian gives the particulars of the purchases and donations of books during the year.

As to the Museum, want of space has prevented the addition of the groups of larger animals. One of our associate members, in the name of a Scotch taxidermist, has submitted a proposition to exchange some of our duplicate bird skins for Scotch game birds; if a *locale* can be procured to store the expected specimens, these changes must naturally tend to make our collection of Natural History more extensive, more valuable.

An effort has been made to increase the usefulness of this historical institution and to carry out more fully the object of its charter by the adoption of measures for the preservation of the valuable maps, plans and journals, relating to the history of Canada, which had been accumulating for the last twenty years in its archives. The Society, it is well known, from its earliest times has spent large sums in printing and publishing memoirs, siege narrations and records bearing on Canadian annals, as well as in acquiring complete fyles, when practicable, of the pioneer news sheets and leading journals published in this city, such as the *Quebec Gazette* dating from 1764, the *Quebec Herald* from 1789, the *Quebec Mercury* from 1805, the *Morning Chronicle* from 1847. These invaluable sources of reference for students of history as well as business men—some, costly purchases—others, prized gifts by well-wishers to the Society—through lack of space in the library, had been relegated to a dusty and dark corner of the museum, neglected, difficult of access, from want of covers, obliterated or torn titles; they have now been brought to light, their bindings and titles repaired and restored. Classified by order of date, they can be of daily and of easy reference, in a small room adjoining the library; the maps and plans, railway surveys and valuable documents donated by outsiders or by our members are equally stored in this room, and preserved in drawers for reference when needed. Our numerous benefactors will see therein a proof that their gifts are duly appreciated and safely preserved.

In connection with donations to this department, it is pleasant to notice an important and new gift from Messrs. Dawson & Co., of eighteen bound volumes of the *Quebec Gazette* from 1856 to 1874, which will go far to complete the fyles of the *Gazette*, covering 110 years of Quebec history. The Society has also to thank, among others, an old friend

of the institution, the Hon. John Fraser, now at Charleston,* for a most valuable gift of coins, medals, Indian and other curiosities, &c. The siege narratives, memoirs, journals and diaries kept by the late James Thompson, a volunteer under General James Wolfe, and later on attached to the Royal Engineer Department, at Quebec, embracing a period of seventy-two years (1758-1830), having been placed on the market, the Society devoted a portion of the historical fund to procuring these unpublished diaries—eight or ten volumes in number—which comprise so much of the history of our city, pending the sieges of 1759 and 1775, and later on.

The Council have also to report that steps have been taken to acquire from the Morrin College the privilege of using one of its spacious apartments for its meetings, where papers and essays may be read.

The report of the Treasurer will be laid before the Society to make known the state of the funds at the present moment, and also the different heads of receipt and expenditure during the year just expired.

J. M. LEMOINE,
President.

Quebec, 11th January, 1882.

REPORT OF THE LIBRARIAN.

The report of the Librarian in resigning office does not offer anything of particular interest. Though the reading room continues to be more appreciated each succeeding year, yet the issues of books have been fewer than during the preceding period, viz: a few over 4,000.

This diminution of circulation is no doubt owing to the small additions to the Library during the past year. It is

* Our esteemed friend has just closed his career on the 2nd May, 1882.

to be regretted that the state of our finances has limited our purchases, for we have many new books on the approved list, and are only awaiting the funds to procure them.

Among the few purchases is the latest edition of the *Encyclopedia Britannica*, a work of great commercial and literary value, in those respects equivalent to many smaller volumes.

The donations to the Library have been numerous, among them being a valuable historical work presented by our Patron, His Excellency, the Marquis of Lorne, and eighteen volumes of the *Quebec Gazette*, given by Messrs. Dawson & Co. To these and other donors, our best thanks are due;—may their example stimulate many more to present us with their spare volumes! This is pre-eminently a kind of charity which does not impoverish the donor, neither does “imparted knowledge” diminish learning’s store.

List of the donations, purchases and exchanges of transactions are appended to this report. These latter are numerous;—though many do not bring any immediate return, yet this judicious distribution of our publications serves the purpose of our charter and is earning for our Society a widespread reputation.

Respectfully submitted,

RODERICK MCLEOD,
Librarian.

The election of officers for the coming year, then took place, with the following result:—
